Was Noah's Flood Worldwide?

Number	Scientific Evidence
65	Worldwide distribution of Flood traditions.
66	Origin of civilization near Ararat-Babylon region in post-Flood time.
67	Convergence of population growth statistics on date of Flood.
68	Dating of oldest living things at post-Flood time.
69	Worldwide occurrence of water-laid sediments and sedimentary rocks.
70	Recent uplift of major mountain ranges.
71	Marine fossils on crests of mountains.
72	Evidence of former worldwide warm climate.
73	Necessity of catastrophic burial and rapid lithification of fossil deposits.
74	Recent origin of many datable geological processes.
75	Worldwide distribution of all types of fossils.
76	Uniform physical appearance of rocks from different "ages."
77	Frequent mixing of fossils from different "ages."
78	Near-random deposition of formational sequences.
79	Equivalence of total organic material in present world and fossil world.
80	Wide distribution of recent volcanic rocks.
81	Evidence of recent water bodies in present desert areas.
82	Worldwide occurrence of raised shore lines and river terraces.
83	Evidence of recent drastic rise in sea level.
84	Universal occurrence of rivers in valleys too large for the present stream.
85	Sudden extinction of dinosaurs and other prehistoric animals.
86	Rapid onset of glacial period.
87	Existence of polystrate fossils.
88	Preservation of tracks throughout geologic column.
89	Worldwide occurrence of fossil "graveyards" in rocks of all "ages."
90	Absence of any chronologic boundary between successive "ages."
91	Occurrence of all rock types (shale, limestone, granite, etc.) in all "ages."
92	Parallel of supposed evolutionary sequence through different "ages"
93	Lack of correlation of most radiometric "ages"
94	Absence of meteorites in geologic column.
95	Absence of hail imprints in geologic column
96	Evidence of man's existence during earliest of geologic "ages"
97	Similar structural features (rifts, faults, folds) in rocks of all "ages."
98	Absence of evidence of drainage systems in sediments of any "ages"
99	Hydraulic evidence of rapid deposition of each stratum
100	Numerous modern sightings of probable remains of Noah's on Mount Ararat
